

Empathy Map

Date	4 July 2026
Team ID	xxxxxx
Project Name	Human Development Index (HDI) Prediction Using Machine Learning
Maximum Marks	4 Marks

Empathy Map:

Says:

1. I need an accurate way to predict a country's HDI.
2. Manual analysis takes too much time.
3. I want quick and reliable results for decision-making.

Thinks:

1. Which factors affect the Human Development Index the most?
2. Can machine learning improve prediction accuracy?
3. This prediction will help in planning development policies.

Does:

1. Collects life expectancy, education, and income data.
2. Enters the values into the HDI prediction system.
3. Uses the predicted HDI score for analysis and planning.

Feels:

1. Confident when accurate predictions are available.
2. Satisfied with quick and easy results.
3. Better prepared to make informed development decisions.
