

Project Demo Planning

Date	04 july 2026
Team ID	XXXXXX
Project Name	Human Development Index (HDI) Prediction Using Machine Learning
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the project is presented clearly and effectively. This demonstration highlights the problem statement, machine learning solution, application workflow, and live prediction of the Human Development Index (HDI) using a Flask-based web application.

Demo Plan

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement.	2	Team Member 1
2	Dataset & Model	Explain the HDI dataset, preprocessing, and Linear Regression model.	3	Team Member 2
3	Live Application Demo	Demonstrate the Flask application by entering	4	Team Member 3
4	Results & Evaluation	Present prediction accuracy, R^2	2	Team Member 1
5	Future Enhancements	Discuss possible improvements such as advanced	2	Team Member 2
6	Questions & Conclusion	Summarize the project and answer questions	2	Entire Team

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem	Explain the importance of HDI
2	Solution Overview	Describe the dataset,
3	Live Feature Demonstration	Run the application, enter
4	Q&A Session	Respond to evaluator

Expected Demo Outcome

- Successful execution of the Flask web application.
- Accurate prediction of the Human Development Index (HDI).
- Display of the corresponding HDI category (Very High, High, Medium, or Low).
- Demonstration of a user-friendly interface and smooth workflow.
- Clear explanation of the machine learning model and project implementation.

Conclusion

The demo plan ensures that all important aspects of the Human Development Index (HDI) Prediction Using Machine Learning project are presented in a structured and professional manner. It covers the problem statement, solution approach, live application demonstration, evaluation results, and future scope, helping the team effectively showcase the project's functionality and objectives.
